New Beginning. New Name. Same Commitment.

We're Excited to Announce that We have a New Name.

To our valued members, we are excited to announce that as of today, May 1, 2020, we have a new name. Our corporation name has changed from Legal Secretaries, Incorporated (LSI) to Legal Professionals, Incorporated (LPI). This name change is part of our growth, which will enable us to be the number one go-to resource for legal support professionals. We have the opportunity to further expand upon our services in providing stellar continuing education and professional development to legal support professionals throughout the state and beyond.

We continue to be the beacon in the legal community with over 80 years of providing educational and professional programs. Our commitment and professionalism has not changed. LPI is dedicated to educating and promoting high ethical standards to legal support professionals. We will continue to provide "Excellence through Education," which is paramount to the goals and objectives of this corporation.

What does this mean for our members? It's business as usual, with more educational opportunities offered to you through our online classes and webinars, our publications, and professional development through networking. Today you will see changes to our identity system through our new website, **www.legalprofessionalsinc.org**, and through our social media profiles (Facebook, LinkedIn, Instagram, and Twitter). Your member-only password will remain the same. Only a minimal change has been made to our logo and our tagline remains the same, Educating California's Legal Support Professionals. Please click the website link above for an exciting video clip to share with your co-workers, members, and fellow legal professionals.

We're incredibly proud and thankful for our members, our volunteers, and our legal community partners that have journeyed with us in our growth. We are grateful to all of you. LPI looks forward to trailblazing a new frontier in our legal community with your continued support.
